Founded in 1933

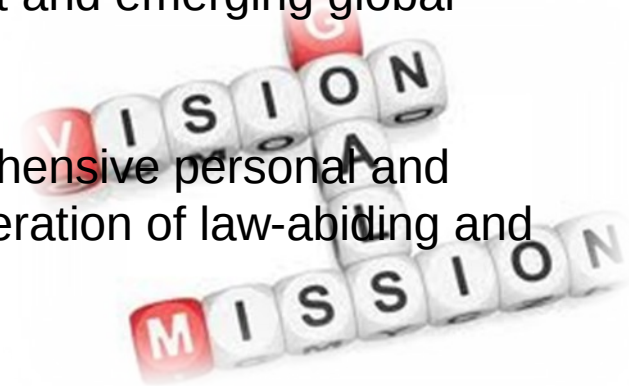

Yerevan Polytechnic Institute

Mission

State Engineering University of Armenia (Polytechnic) is a higher educational institution with a polytechnic emphasis, the basic mission of which is:

- to create and implement academic/research programs and services consonant with educational and technological needs of the national economy and society,
- to prepare students for life, career, life-long learning and professional progress in line with changing economic environment and emerging global information society,
- to create a supportive environment for the comprehensive personal and intellectual development of each individual, new generation of law-abiding and responsible citizens.

Vision

THE UNIVERSITY ASPIRES TO BECOME:

an institution, where the entrance and educational recourses are accessible to diverse social and age groups of learners, to both local and international students,

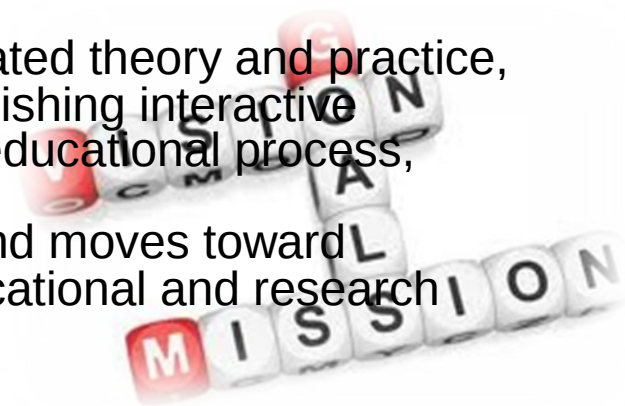

an institution, adaptable to environmental changes and responsive to the changing needs of the society and economy and the demands of the employment market,

an institution, which has an essential role in national and regional programs of economic development and technological innovation,

an institution, that prepares students for a full-fledged career, professional progress, innovation and leadership,

an institution that provides quality education by integrated theory and practice, creating a sound basis for general education and establishing interactive cooperation between the teachers and students in the educational process,

an institution, which is guided by global prospective and moves toward internationalization and European integration of its educational and research systems and etc.

Students' Participation in ESPAQ

education 
for all

***SEUA will contribute practically in all WP-s
aimed at the development and
implementation of all project's tasks based
on European standards.***

education 
for all

To ensure professional approach to the project tasks solution SEUA will act through the Student Council. The role of Student Council is very important in empowering students to participate in QA.

education
for all

Involved in the development of rules and regulations, strategic and operational plans as well as in the functioning of the project the representatives of Students Council will contribute to the students' pro-active participation in the project activities.
